

INTERACTIVE EXPERIENCE

HORSE & PONY *FEEDING EXPERIENCE*

Connect with our gentle giants. A guided session on grooming, treating, and understanding our resident horses.

ACTIVITY OVERVIEW

Meet us at the Stables for a hands-on introduction to equestrian care. Guests will learn safe handling techniques, participate in grooming sessions, and prepare special "treat buckets" (apples, carrots, and grain) to feed our therapy horses and ponies.

QUICK FACTS

Time	2:00 PM Daily
Duration	60 Minutes
Location	The Stables

MORE THAN JUST TREATS

This experience is designed to teach respect and empathy for large animals. Participants start with a safety briefing on "Horse Language" before moving into the stable aisle.

You'll learn how to properly brush a pony's coat, pick out a hoof (demonstration), and the correct way to offer a treat flat-handed. It's an empowering experience for children and a relaxing one for adults.

i Closed-toe shoes are mandatory for this activity!
